

DESCRIPTION:

Carpet Cover FR is a super-strong, flame-retardant protective film for the temporary protection of carpet, carpet tiles and upholstered stairs. The product has a self-adhesive underlayer, developed specifically for adhesion to porous surfaces such as carpets. Carpet Cover FR is extremely resistant to intensive loads thanks to the particularly strong and tough material. Because of the unique adhesive layer, the material always lays well without the need for additional masking tape. Carpet Cover FR leaves no adhesive residue behind after removal. There are multiple variants available ranging in thickness and dimension.

APPLICATIONS:

- FLAME-RETARDANT COVERING OF CARPET
- FLAME-RETARDANT COVERING OF CARPET TILES
- FLAME-RETARDANT COVERING OF TEXTILE SUBSTRATES
- FLAME-RETARDANT COVERING OF STAIRS WITH CARPET

CHARACTERISTICS:

- EXCELLENT FLAME-RETARDANT PROPERTIES
- QUICK AND EASY TO USE
- SAFE FOR WALKING ON THANKS TO SELF-ADHESIVE UNDERLAYER
- PARTICULARLY THICK MATERIAL FOR INTENSIVE LOADS

TECHNICAL DATA:

Application duration	45 days (max 40° C)
Storage	12 months (5° – 30° C) (dry, no direct sunlight)
Thickness	80µ (± 10%)
Adhesion to steel	12 – 19.0 N/cm
Tensile strength	> 10 N/mm ²
Elongation	> 350%
Winding	Reversed wound
Core	Cardboard Tube

COMPOSITION:

Material	LLDPE Polyethylene
Adhesion layer	Acrylic waterbased
Color	White
