

DESCRIPTION:

Multi Cover Event is a moisture-proof protective fleece for the temporary protection of sports hall and gymnasium floors. The non-woven protective material consists of three layers. The underlayer is a non-slip film, ensuring the product always remains in place. An absorbent layer of recycled textile fibres is attached to this. The strong upper layer is a strong spun fleece that provides optimum protection to the underlying floor. As a result, the product does not fluff up.

APPLICATIONS:

- COVER GYMNASIUM FLOORS
- COVER SPORTS HALL FLOORS
- COVER PVC FLOORS

CHARACTERISTICS:

- MOISTURE-ABSORBENT
- WATERTIGHT FROM THE TOP
- REUSABLE

TECHNICAL DATA:

Application duration	Unlimited (max 40° C)
Storage	Unlimited (5° – 30° C) (dry, no direct sunlight)
Thickness	1.2mm +/- 0.3mm
Weight	220 gr/m ²
Tensile Strength [MD]	Min. 25N/5cm
Tensile Strength [CD]	Min. 35N/5cm
Elongation @ Fmax [MD]	Max. 15%
Elongation @ Fmax [CD]	Max. 30%

COMPOSITION:

Material	Non-woven / Spunbond made of recycled fibers (cotton and synthetic)
Underlay	Anti-slip film
Color	Gray
