

## DESCRIPTION:

Multi Cover Standard is a self-adhesive protective fleece suitable for covering and protecting various types of floors and stairs. Multi Cover Standard consists of two layers. The underlayer is a non-woven textile with non-slip coating. The tough film upper layer prevents the penetration of dirt and moisture. Multi Cover Standard therefore provides perfect protection to your floor.

## APPLICATIONS:

- COVER HARD FLOORS
- COVER PRECAST CONCRETE
- COVER PREFABRICATED STAIRS
- COVER PREFABRICATED GALLERY
- COVER LAMINATE
- COVER LINOLEUM

## CHARACTERISTICS:

- SHOCK-ABSORBENT
- MOISTURE-PROOF
- ANTI-SLIP
- QUICK TO USE
- REUSABLE

## TECHNICAL DATA:

Application duration	Unlimited (max 40° C)
Storage	Unlimited (5° – 30° C) (dry, not in direct sunlight)
Thickness	3.35mm +/- 10%
Weight	180 gr/m <sup>2</sup>
Tensile Strength (MD)	Min. 100N/5cm
Tensile Strength (CD)	Min. 135N/5cm
Elongation @ Fmax [MD]	Max. 125%
Elongation @ Fmax [CD]	Max. 150%
Skid ability	150 N / A4 Sample
Winding	Reversed wound (glue on the outside)
Core	Cardboard Tube

## COMPOSITION:

Material	Non-woven 100% PES vezels
Kleeflaag	Acrylic op waterbased
Kleur	White
Toplayer	Laminated with non-breathable PE-film
