

## DESCRIPTION:

Easydek Sticky Mat is a self-adhesive entrance mat for the reduction of dust. The adhesive upper layer easily captures dust. The underside also has a self-adhesive layer to ensure the mat does not move and remains firmly in place. During new construction, repair and maintenance, Easydek Sticky Mat offers optimal protection against dust migration. Easydek Sticky Mat automatically removes dust under the shoes of those walking in and out of a construction site or production location. Easydek Sticky Mat is ideal for rolling stock such as mobile scaffolding, carts, dollies, trolleys, forklifts or wheelchairs.

## APPLICATIONS:

- COLLECT DUST UNDER SHOES
- COLLECT DUST UNDER MOBILE SCAFFOLDING
- COLLECT DUST UNDER CARTS, DOLLEYS AND TROLLEYS

## CHARACTERISTICS:

- Easy to use
- High dust adhesion
- Prevents rooms from becoming dirty
- Number of sheet indicator
- Light weight

## TECHNICAL DATA:

Thickness	35 $\mu$ +/- 10% a sheet
Adhesion to steel	0,54 N/cm
Adhesion side	On top
Application duration	6 months (max 40° C)
Storage	6 months (5° – 30° C) (dry, no direct sunlight)

## COMPOSITION:

Material	LDPE Polyethylene
Adhesion layer	Acrylic waterbased
Color	White / Blue
